

Mogamat Muneer Miller

Cape Town, Western Cape | +27 67 132 4695 | <https://www.linkedin.com/in/muneer-miller>

ABOUT ME

Highly motivated and adaptable technology professional with experience in software and web development, supported by a strong foundation in problem-solving, technical support, and customer assistance. Skilled in Python, Java, JavaScript, HTML, CSS, SQL, and backend development concepts, with a solid understanding of the Software Development Life Cycle (SDLC). Experienced in working with Microsoft 365, Active Directory, Microsoft Azure, and remote support tools within fast-paced environments, while applying strong troubleshooting and analytical skills to resolve technical issues efficiently.

EDUCATION

WeThinkCode_ <i>National Certificate: Information Technology: Systems Development</i>	Cape Town, Western Cape <i>Graduation Date: Oct 2022</i>
Grassy Park High School <i>High school diploma</i>	Cape Town, Western Cape <i>Graduation Date: Dec 2019</i>
IBM <i>Web Development Fundamentals</i>	Remote <i>Graduation Date: May 2023</i>

WORK EXPERIENCE

Home Assist Technologies <i>Junior Software Developer</i> - Collaborated with cross-functional teams to identify and prioritize new feature development for web applications, resulting in a 20% increase in user engagement. - Developed and implemented comprehensive software testing strategies, resulting in a large reduction in post-release bugs.	Cape Town, Western Cape <i>Jun 2022 - Oct 2023</i>
2U .inc <i>Learning Specialist</i> - Provided remote tutoring in Full-Stack web development in node.js, React.js, SQL and MongoDB, assisting students with homework, class exercises, and projects - Guided students in problem-solving, delivering clear explanations and solutions to enhance understanding. - Graded assignments promptly, maintaining a 24-48 hour turnaround. - Supported boot camp students with technical skills and success strategies, fostering academic growth and confidence.	Cape Town , Western cape <i>Jul 2023 - Oct 2024</i>
Baseline IT <i>Remote Support Technician</i> - Provided remote technical support to users remotely, diagnosing and resolving a wide range of hardware, software, and connectivity issues. - Worked extensively with Microsoft 365, Active Directory, and Microsoft Azure to assist with user account management, access control, troubleshooting, and general IT support tasks. - Delivered comprehensive technical assistance while documenting solutions, maintaining accurate support records, and ensuring efficient issue tracking and resolution. - Escalated complex technical problems to senior staff when necessary, ensuring timely and professional resolution while maintaining high levels of customer satisfaction. - Applied strong adaptive troubleshooting skills to identify root causes, resolve issues efficiently, and provide users with clear guidance and preventative best practices.	Cape Town, Western Cape <i>Mar 2025 - Present</i>

PROJECT EXPERIENCE

WeThinkCode_ and IBM	Cape Town, Western Cape
-----------------------------	-------------------------

- Collaborated with a team of five to build a text-based Java game that allows a user to connect to another user's randomly generated world that is filled with obstacles, mines, and pits, choose a class, and start playing by inputting each command via the list of commands that is printed when connecting to a world.
- Built a mobile application for the elderly that helps maintain their health as my last project at WeThinkCode_. Worked solely to timely deliver codebase in Dart, and SQLite for offline storage while using APIs such as OpenCage API for location information, TomTom API for routing and navigation, Jisti Meet for video calls, and Firebase for authentication, Firestore, and Storage.
- Developed a quick and easy home page that showcases the parallax effect background-attachment style.
- For my final project on the IBM Skillsbuild platform, I built a web application that allows you to create tasks in a list format that you are able to mark complete and delete.

LEADERSHIP EXPERIENCE

WethinkCode_

Cape Town, South Africa

Team Lead

Aug 2020 - Oct 2023

- During my team project studies at WeThinkCode_, we were tasked to create an alternating team lead system where after each change in the iteration of the group project, the team lead would change. During my few weeks of leadership, I reorganized the team production structure and changed the file structure of the project which lead to a production increase of 20% and a 32% decrease in data handling errors,

AI & PRODUCTIVITY TOOLS

Experienced in using AI tools such as ChatGPT, GitHub Copilot, Microsoft Copilot, Claude, and Base44 to improve productivity and streamline workflows. Regularly leverage AI-assisted tools for software development, frontend design ideation, debugging, documentation, research, and technical problem-solving. Use GitHub Copilot to support development tasks, Base44 for frontend and UI workflow assistance, and Microsoft Copilot and ChatGPT to enhance day-to-day professional organization and communication.

SKILLS & INTERESTS

Skills: Github, C#, Python, CRUD operations, Java, CSS, HTML, Javascript, React.js, Node.js, SQL, SQLite, Microsoft 365, Microsoft Azure, Active Directory

Interests: Web development and AI Automation
